SCIENTIFIC PROGRAMME

IFOS: INTERNATIONAL FEDERATION OF OTO-RHINO-LARYNGOLOGICAL SOCIETIES

SFORL: SOCIÉTÉ FRANÇAISE D'OTO-RHINO-LARYNGOLOGIE ET DE CHIRURGIE DE LA FACE ET DU COU

THE SFORL

A SOCIETY ON THE MOVE

The French ENT and cervico-facial surgery society (SFORL) was founded in Paris in **1883**

Down the years, this medical, learned society has brought together ENT specialists and cervico-facial surgeons in France and all French-speaking ENT practitioners.

Currently, the society boasts **2255** ENT members, of which **602** are foreign corresponding members. It thus constitutes a genuine medical community, comprising both private and academic ENT.

The scientific research performed by members is published in the SFORL journal and/or is presented at the annual national congress.

The congress is held in Paris, generally in October, and attracts more than **2500** delegates, making it the biggest annual French-language scientific ENT meeting.

Since its creation, the SFORL has always published a scientific journal, currently called **Annales Françaises d'OtoRhinoLaryngologie et de Pathologie Cervico-Faciale**, and an English on-line version **The European Annals of Otorhinolaryngology, Head and Neck Diseases**.

The SFORL publishes one or two yearly reports, on paper or in e-version, providing an update on a specific topic in the ENT field.

Guidelines are provided in the reports and are available with free access to the entire medical body on the SFORL site: www.orfFrance.org

The SFORL works in close cooperation with the French National Health Authority and is regularly consulted on public health issues. The Society is involved in training and practice evaluation.

The SFORL supports research and young ENT specialists. Every year, it awards grants of up to **20,000** euros.

The SFORL communicates via its internet site www.sforl.org, and its Twitterfeed [@twittorl](https://twitter.com/twittorl).

In **2017**, as a member of the International Federation of ORL Societies, the SFORL was proud to host the IFOS World Congress.

WWW.SFORL.ORG

 [@TWITTORL](https://twitter.com/twittorl)

The SFORL offices are located in Paris, 26 rue Lalo, and the administration secretariat is open from 10 am until 5 pm.

Scientific programme as of june, 5th 2017

WELCOME!

MESSAGE FROM THE PRESIDENT

Dear Friends and Colleagues,

It was my great honor and pleasure to host the 20th IFOS World Congress in Seoul in 2013, and now I am very pleased to welcome all of you to the 21st IFOS World Congress in one of the most historic cities, Paris in June, 2017. On behalf of the IFOS I would like to congratulate organizing committee of the 2017 IFOS World Congress has done a tremendous amount of work for the last few years to establish baseline structure of the congress under the strong leadership of the President Bernard Fraysse and General Secretary Frederic Chabolle. The Ad-Hoc Committee meeting was held in Paris in January in this year gathering IFOS chairs and local French chairs and members to build a Preliminary Program under the Main Theme of "Diversity, Innovation and Evaluation". The scientific program will include all aspect of ORLHNS and related programs, and we would like to invite all delegates from all international society members to participate actively in the Keynote Lectures, Round Tables, Symposia, e-Posters Sessions and Instructional Courses with your colleagues to share cutting edge knowledge in the research and clinical science field, and bring back your new ideas to your local society members. This is our mission to organizing IFOS World Congress in every four years in different part of the world. I strongly welcome all of you to join in this well organized 21st IFOS World Congress to give a lecture and to learn, and enjoy Paris with your colleagues and families.

A handwritten signature in black ink that reads "CS Kim". The signature is stylized and cursive.

Chong Sun Kim,
President, IFOS

MESSAGE FROM THE GENERAL SECRETARY

Ladies and gentlemen, dear friends

Of otorhinolaryngology It was just a while ago when we thanked to Professor Chong Sun Kim and his team for organizing a very successful event IFOS Congress 2013 in Seoul, Korea. The baton has been passed to Professor Bernard Fraysse and the

French team with great hope but also serious responsibility to prepare the same but also very different event IFOS Congress 2017. In the principle the IFOS Congress will always be the gathering of experts from all over the world with round tables, panels, instructional courses, oral presentations, posters, movies etc. But each organizer and all participants inoculate different atmosphere, personal contribution which makes the IFOS Congress so unique, diverse and different from the previous meetings. This is what I mean if I say that this will be the same but as well very different meeting. From the communication with the French organizers I know how much effort has already been invested to reach the goal: the unique IFOS world ORL congress in Paris 2017. Each single detail has been discussed regarding the personal communication, scientific program, social program, modern technologies, education, and training. The scientific program is already outlined by the outcome from the Congress preparation meeting that has been organised in Paris in January 2015, two and half year ahead of the Congress. I have no doubt that in the period 24-28 of June 2017 all of you who plan to come to Paris for the IFOS 2017 will appreciate this effort and activities of the French colleagues. It is my great pleasure to invite you all from each continent Africa, America (Central, North and South), Asia, Europe to meet in Paris, in the Capitale of the ORL world 2017.

A handwritten signature in black ink, appearing to read 'Milan Profant'.

Milan PROFANT

IFOS General Secretary

WELCOME FROM THE IFOS 2017

PRESIDENT

In the name of the French Society, we would like to thank the Board of IFOS and Milan PROFANT, for their thrust, giving us the responsibility to organize the World ENT Congress 2017 in Paris. We measure this challenge especially after the outstanding success obtained by professor Chong KIM and the 2013 Congress in Seoul, which was widely praised for its scientific, social and organizational achievements.

The entire ENT French community has been involved with strength and conviction into this project as we share the same IFOS values:

enhance the development of the ENT field around the world.

The Local Scientific Committee, in collaboration with the International Advisory Board of IFOS, established in January 2015 the major topics of the second announcement, taking into account the triple goal: DIVERSITY, INNOVATION, EVALUATION:

- ▶ **Diversity** of practices and resources around the world.
- ▶ **Innovation** to link basic science and clinical research.
- ▶ **Evaluation** of quality of care, leading to worldwide guidelines.

The social program will be memorable, in Paris, the city of lights with a private visit of the Louvre Museum during the congress dinner.

Conferences on “science and senses” will be organized all along the Congress.

It is an honor to welcome all of you for the 2017 Paris World Congress.

Join us, we need your professional experience.

A handwritten signature in black ink, appearing to read 'B. Fraysse'.

ABOUT IFOS

The International Federation of ORL Societies (IFOS), is a non-political organization representing over 50,000 Otolaryngologists belonging to about 120 member nations. There is a huge global discrepancy in available resources and manpower and this greatly modulates our activity.

IFOS was founded in 1965 to provide continuity between World Congresses, it has evolved to deal on a global basis with the problems of people with ORL disease by means of an active secretariat and committee structure; lobbying the World Health Organization; a leader in the global program for hearing loss prevention; providing interchange between centers, especially in Europe through the Twin Cities Project; publishing a newsletter and maintaining the interactive website. It has a continuing medical educational role and has developed a model undergraduate curricula; it has now initiated CME conferences between World Congresses and recently started the Worldwide Action «Hearing for All».

MISSION STATEMENT

To identify critical global ORL care needs and communication disorders, to propose ways to prevent and treat individuals with them and to set priorities among these needs according to their impact on society.

GENERAL INFORMATION

FROM A TO Z

ACCOMMODATION DESK

For questions or to receive assistance regarding your hotel reservation (official congress hotels only) please come to see us at the Organizers office located on Level 2 at the registration area.

CERTIFICATE OF ATTENDANCE

You will receive by email after the congress your certificate of attendance.

CHILDREN

As a reminder, children under 16 years old are not allowed on the exhibition area.

CLOAKROOM

Cloakroom is located on Level 3. Organizers are not responsible for any damage, loss or theft of items left in the cloakroom after closing.

Opening hours are:

June 24th 9 a.m. ▶ 8 p.m

June 25th 7 a.m. ▶ 8 p.m

June 26th 7 a.m. ▶ 8 p.m

June 27th 7 a.m. ▶ 8 p.m

June 28th 7 a.m. ▶ 5 p.m

CONGRESS BAGS

Congress bags will be given to each fully registered delegate at the congress bag desk located on Level 3.

COFFEE BREAKS

Coffee breaks for registered participants will be served in the morning from 10:30 am to 11:00 am and afternoon from 4:00 pm to 4:30 pm as from Sunday to Wednesday in the exhibition area.

CONCIERGE SERVICE

Concierge service in the registration areas is at your exhibitor and delegates disposal to solve day-to-day issues.

Examples of services:

- ▶ Transfer to/from the airport, limousine services,
- ▶ Restaurant reservation - onsite or in Paris,
- ▶ Train/plane ticket reservations and modifications,
- ▶ Fedex, DHL, UPS, courier services,
- ▶ Dry cleaning services,
- ▶ Last minute deliveries to/from exhibitor stand ...

DAILY NEWS

Each day you will receive our daily news ! Do not hesitate to ask for a copy.

EPOSTERS

Eposters may be viewed on computer terminals located on Level 2 and Level 3 within the exhibition area.

EUCOMED

The ENT World congress received the eucomed accreditation.

EXHIBITION FLOORPLAN

Please see the sponsors program (*available in your congress bag*).

FUTURE MEETINGS INFORMATION DESK (MESSAGE BOARD)

Participants can find or leave information about several upcoming meetings and events at the future meetings information desk located at the registration area on level 2.

IFOS 2021

The name of the City where the ENT World Congress 2021 will be held, will be announced during the closing ceremony. Which candidate cities will organize the next ENT World Congress: Buenos Aires, Dubai, Marrakech, Vancouver, Yokohama?

IFOS OFFICE

The IFOS Office is located in room 304 on level 3 next to the registration area.

INDUSTRIAL SYMPOSIA AND WORKSHOPS

Please see the sponsors program (*available in your congress bag*).

LOST AND FOUND

Lost items will be kept at the registration desk in the Organizers office (please ask an hostess for exact location).

LUNCHES

Buffets will be served on the exhibition areas on Level 2 and Level 3 (included in your registration fees). Please note that you will find a cash bar on level 3 for any additional needs.

MEDIA ROOM

Our press partner ENT News will be delighted to welcome you at the media room ! If you have 5 minutes, you can go there and chat with them to be published on Twitter or maybe on our daily news.

MOBILE APP

A dedicated mobile app is available on your store: IFOS 2017.

NAME CHANGE

Registered participants who are unable to attend the congress cannot nominate a substitute participant. Name changes are not permitted.

OFFICIAL LANGUAGE

The official language of the ENT World Congress is English. French sessions will be available in Havane Room during the whole congress.

REGISTRATION

On-site registration fees

The prices indicated are per person.

Doctors	980€
Fellow / resident	200€
Emerging countries	500€
Other professions : Speech therapist, physiotherapist, audiologist, hearing aid dealer, nurse	400€
Invited country CHINA	600€
Citizens from the candidate countries IFOS 2021:	
Argentina, Canada, Dubai, Japon, and Morocco	690€
Visitor (<i>Exhibition area access only, no access to scientific sessions</i>)	300€
Accompanying person	
For the social programme	380€
Networking event	150€

Onsite registrations desks will open from June 24th, at 9:00 a.m.

The conference registration fee includes:

- ▶ Admission to the Congress, all the sessions and exhibition area except the courses that require a pre-registration
- ▶ Admission to the opening and closing ceremonies
- ▶ Admission to the welcoming Cocktail
- ▶ Admission to the lunch symposia and workshops
- ▶ Coffee breaks
- ▶ The documents of the congress (final programme, congress bag, nominative badge)
- ▶ Certificate of attendance which will be sent by email after the Congress

INVOICE

An electronic invoice will be emailed to participants. The invoice will be issued within a week after the registration and cannot be changed, so please make sure you have provided us with the correct information (company name, address and VAT number if applicable).

In case of any enquiries, please contact: contact@ifosparis2017.org

SENSES WORKSHOPS

See page 20.

SFORL

The French ENT Society is pleased to welcome you on its booth located on Level 2 in front of the registration area. Please come and visit us to get all relevant information about our activities.

SOCIAL PROGRAMME

See page 19. For any question regarding the social events, please come and see us at the Social Desk located on level 2 at the welcome area.

SPEAKERS' PREVIEW ROOM

All speakers are invited to use the Preview Room, on Level 3, to prepare, check and upload their presentation files and materials.

TRANSPORT

Access by Metro (Underground)

You can reach the congress center by:

- ▶ Metro line 1 stop at «Porte Maillot» station.
- ▶ Line RER C stop at «Neuilly-Porte Maillot» station.

Access by train/TGV

The Congress Center is situated at 15 minutes by car from Gare de Lyon, Gare de l'Est and Gare du Nord and at 20 minutes from Gare Montparnasse.

You can also reach the Congress Center by public transport from these stations.

Access by bus

Bus station "Porte Maillot"

- ▶ Line 43 from Gare Saint-Lazare to Gare du Nord.
- ▶ Line 73 from Place de la Concorde to the Champs Elysées.
- ▶ Line 82, line 244, line PC1, line PC3.

Access by plane

Paris has 2 main airports: Roissy Charles de Gaulle 1 and 2, 30 minutes by car from the Congress Center.

- ▶ Roissy CDG is served by RER B, and by Air France coaches.
- ▶ Paris-Orly, also 30 minutes by car from the Congress Center. Orly is accessible by Orlybus (which leads to « Pont de Rungis » stop on RER C line) and by Air France coaches, from place Charles De Gaulle Etoile.
- ▶ A secondary airport, Paris-Beauvais, is also accessible by shuttle.

TRADE EXHIBITION

A trade exhibition will be held in the Palais des congrès during the congress. The exhibition will be open at the following hours:

June 24th 6 p.m. ▶ 8 p.m

June 25th 8 a.m. ▶ 6 p.m

June 26th 8 a.m. ▶ 6 p.m

June 27th 8 a.m. ▶ 6 p.m

June 28th 8 a.m. ▶ 5 p.m

UEMS / EUROPEAN ACCREDITATION

European Accreditation means the decision by UEMS-EACCME® that a CME activity, event, programme or e-learning material has fulfilled the UEMS-EACCME® quality requirements. A CME activity or e-learning material will be accredited by UEMS-EACCME® if it has a high quality scientific content, if it is free of commercial bias and has an appropriate educational approach.

CME accreditation granted by the UEMS-EACCME® also provides a guarantee to participants from all over the world that the content of the CME provided is of a high quality, unbiased and didactic and, for European doctors, that this quality will be recognised in their home country.

The UEMS recognises that considerable advances are being made in the methodologies by which CME and CPD can be provided, and by which these educational opportunities are accessed by doctors. For this reason, the UEMS has agreed in principle to the accreditation by the EACCME® of new media for the delivery of CME-CPD, that go beyond traditional lectures, symposia and conferences.

The UEMS-EACCME® has mutual recognition agreements with the American Medical Association (AMA) for live events and e-learning materials and with the Royal College of Physicians and Surgeons of Canada for live events only.

USEFUL INFORMATION

Emergency: In case of emergency, dial 112 and ask for ambulance services, the fire department or the police.

15:30
Taste and flavours through an oenologic sessions with Dom Perignon Chef de cave, Richard Geoffroy

15:30 ▶ **EQUILIBRIUM**

17:00
Dancing skills with Dr C. Henneaux and Sylvia Printemps a former dancer from Ballets Béjart

JUNE
28

Starting at 4:00 p.m.

CLOSING CEREMONY

The end!

It is always a specific moment.

It will be the time to the Awards Ceremony, and to the announcement of the name of the City (among Buenos Aires, Dubai, Marrakech, Vancouver, Yokohama) where the ENT World Congress 2021 will be held. Then, the flag of IFOS will be passed.

- ▶ **Presentation of the winner of the elected city**
- ▶ **Awards ceremony :**
 - Humanitarian Program award
 - Young Physician award
 - Innovation from industry award
 - E-poster awards
 - Video award
 - ENT App awards

ACCOMPANYING PERSONS

PROGRAM

PRICE PER PERSON : 380 €

Your registration fee includes:

- ▶ **Opening Ceremony & Welcoming reception**
- ▶ **Sightseeing tour** of Paris
- ▶ **Cruise** on the River Seine and Montmartre
- ▶ **Food tour** in an historical district of Paris
- ▶ **Versailles**, or THE "heart" of power
- ▶ **Closing ceremony**

We invite you to visit Paris and such a worldknown place as Versailles in the best secured conditions, specifically demanded for you by the President and the whole Organizing Committee of the congress.

Private buses and guides only dedicated to you will be booked for the outdoors tours. After checking upon boarding, **Paris and Versailles will be yours!**

JUNE
25

2 p.m. to 5 p.m.

SIGHTSEEING TOUR OF PARIS

Private buses and guides will be dedicated to YOUR visit of Paris, with stops at Le Palais Royal, La Tour Eiffel, Les Invalides, and others (referring to the traffic).

JUNE
26

2 p.m. to 5:30 p.m.

CRUISE ON THE RIVER SEINE AND MONTMARTRE

Enjoy an hour's cruise on the River Seine to (re)discover the full splendour of the river banks. After this charming and relaxing « promenade », you will be guided to Montmartre. WELCOME! You will be immediately charmed by the soul of this small village which became at the very beginning of the 20th century one of the most central artistic areas of Paris, where Picasso, Toulouse-Lautrec, Van Gogh and Modigliani performed and used to call « home ».

JUNE
27

9 a.m. to 12 a.m. and 1:30 p.m. to 4:30 p.m.

FOOD TOUR ACROSS AN HISTORICAL DISTRICT

Take the opportunity to attend specific moments of exchange testing specific french specialities produced by some of our best distinguished Ouvriers de France, hanging around a famous historical district of Paris, le Marais. Sensuous pleasure will be ensured.

JUNE
28

9:30 a.m. to 1:30 p.m.

VERSAILLES, OR THE « HEART » OF POWER

You will be for a moment the privileged guests of Sun King. Crossing over the different lounges, imagining the day he was born in Sept 1638, 22 years after the wedding of Louis XIII and Anne of Austria, and the day he died in Sept 1715, after 10 days of death throes.

On May 10th, 1774, when Louis XV died, try to imagine Marie Antoinette, in the lounge called «salon de l'œil de bœuf», falling on her knees, saying: « My Lord protect us, we are too young to reign ! ». She was 19 years old..... Then, you will never forget Versailles !

**ALL OUTSIDE TOURS LEAVE AND

SESSION**Sensorineural hearing loss**

AU-OC01

Moderators: N. GUEVARA, H. DIAB

ROOM 343

Speakers:

F. BERGERON: Auditory perception assessment in real world environments.

P. BÖTTCHER: Enhanced strategies in Screening, Tracking and Follow-Up - different approaches from Germany, Iran, Uzbekistan and Georgia

S. CHEUNG: Tinnitus in Single-Sided Deafness: Increased Corticostriatal Functional Connectivity

M. COSTALES: Next generation DNA-sequencing in Deafness

D. CUDA: Quality of life outcomes in elderly patients one year after their first hearing amplification

S. FRANK: Effect of the administration of Intratympanic Dexamethasone on glycemia in diabetic patients in the treatment of Sudden Hearing Loss.

H. HOFFMAN: Hyperacusis and Tinnitus Prevalence and Risk Factors in the United States: Results of the 2014 National Health Interview Survey (NHIS)

F. IBRAHIM: Pharmacogenomic Review of Platinum-Induced Ototoxicity in Pediatric Population

A. KADERBAY: Deciphering sensorineural hearing loss mechanisms using an innovative nanoproteomic approach.

M. KERIMIAN: Effects of the decrease of intracranial pressure induced by subtractive lumbar puncture on inner ear fluid pressure assessed by multifrequency admittance tympanometry: a prospective study.

J. LECHIEN: The effectiveness of Tinnitus Retraining Therapy and Notched Noise Therapy for tinnitus: a randomized cross-over study.

J. LECHIEN: Impact of tinnitus on the partner

M. VANDER GHINST: Corticovocal coherence: a new tool to investigate speech neurophysiology

S. VARSHNEY: Auditory effects of mobile phones

Various topics in education

EDU-OC01

Moderators: JM. JUVANON, K. OUOBA

ROOM 353

Speakers

G. BASTIANELLI: Long-term personal experience in the humanitarian cooperation and missions

M. BAXTER: ENT Outreach Activities by the Royal Australasian College of Surgeons Over Three Decades

N. BENMOUSSA: Hippocrates the oto-rhino-laryngologist: an epidemiological analysis of ENT diseases in the corpus hippocraticum

J. FENTON: Near-misses in ENT-HNS

A. HU: Otolaryngology Needs in a Free Clinic Providing Indigent Care

A. JAYAWARDENA: Evaluation of a pre-surgical otologic screening tool: a pilot study in rural Kenya

A. KACKER: Role of Complementary medicine to improve patient outcome in the perioperative period in patients undergoing ENT surgery

L. LAWAL: Utilizing an Academic Health Center model in providing Community-based Hearing Healthcare; The 2016 report from the Starkey Hearing Foundation (SHF)

D. NAKKU: Assessing the impact of a longitudinal collaboration on a developing residency program in low resource setting

E. RACY: Giant facial bone tumors in a subsahelian west african hospital : new perspectives with 3D-printed prosthesis.

J. REBOIS: Endoscopic Endonasal Surgery Simulator: How to assess surgical skills?

D. SANTANA-HERNÁNDEZ: How can the ENT societies and international community support universal health coverage through promoting WHO's Priority Assistive Products List?

L. SCHMOLL: ENT and e-learning, a new wave

E. SOLER-LLUCH: Tips for patient safety in ORL-HNS

J. SUBTIL: Is resident training during surgery interfering on the surgical outcome?

T. VAN MULKEN : A Novel Robotic Platform for Robot-assisted Microsurgery

BLUE
AMPHI-
THEATRE**Speakers:**

- A. ALAMADI: The dizzy patient: four by four approach to intervention
- J. ESTEBAN SANCHEZ: Evaluation of audio-vestibular tests in Meniere disease and vestibular migraine
- I. GENGLER: Efficacy of DIAMOX on preserving auditory thresholds in patients with long term Meniere's disease: a monocentric retrospective cohort study
- E. MARTIN-SANZ: Electrocochleography in Ménière's disease
- G. MORRISON: Ménière's disease: pathogenesis and natural history
- HJ. PARK: Management options and results in 251 patients with Meniere's disease: Asan Medical Center experience
- R. QUATRE: Meniere's disease: Respective contributions of Audio-Vestibular Functional Tests and Inner Ear MRI
- I. SALIBA: Superior Canal Dehiscence Syndrome: Suspicion, Diagnosis and Treatment
- M. TOSHIHISA: Vestibular migraine/Meniere's disease overlapping syndrome: consideration of its pathophysiology from the viewpoint of clinical findings
- R. VANSPAUWEN: The role of Magnetic Resonance Imaging in the diagnosis of endolymphatic hydrops and Ménière's disease
- Y. VÉLEINE: Evaluation of vestibular neurectomy efficacy and safety for disabling Meniere's disease and Tumarkin's syndrome : a retrospective study of 149 patients
- F. VIDIGAL VILELA LIMA: Videonystagmography (VNG) test positional protocol for patients with vestibular migraine
- PH. WU: Treatment of inner ear disorders during pregnancy
- F. WUYTS: How to identify vestibular paroxysmia and discriminate it from vestibular migraine

Thyroid cancer

HN-OC02

Moderators: A. TALL, S. PERIE

ROOM 252B

Speakers:

S. AYADI: Papillary thyroid carcinoma : lymph node status

N. CARMEL NEIDERMAN: Aerogidestive tract involvement in well differentiated thyroid cancer (WDC) – preoperative course, imaging sensitivity, recurrence and overall prognosis

J. CARRILLO: Administration of ablative dosage of I131 in differentiated thyroid carcinoma patients with increased levels of thyroglobulin. Accuracy and usefulness of diagnostic 131I scan and “empiric” ablation.

W. CHA: Supramaximal neurostimulation with laryngeal palpation to predict postoperative vocal fold mobility

R. CIAPPUCCINI: The 2015 American Thyroid Association risk stratification system: a tool for predicting the tumor burden of persistent/recurrent disease in patients with differentiated thyroid cancer

S. ESTEBE: limitation of intraoperative frozen section during thyroid surgery

R. HERVOCHON: Assessing parathormone early measurement after total thyroidectomy as a predictive marker of day one hypocalcaemia: a prospective study

YW. KOH: Recent Progress of Retroauricular Robotic Thyroid Surgery after Introduction of the New Surgical Robotic System: Single Institute 3 years' Experiences

M. MAK: Pre-operative Characteristics that Predict a Malignant Diagnosis on Intra-operative Frozen Section for Cytologically Atypical Thyroid Nodules

P. NIKIFOROVICH: Management of papillary thyroid carcinoma according to BRAF status

V. PARENT: postoperative monitoring of parathyroid hormone level as a predictor of outpatient thyroidectomy feasibility

S. PERIE: Conservative 3/4 parathyroidectomy versus 7/8 parathyroidectomy: an observational study of 34 end stage renal disease patients

JM. PRADES: preoperative localization of parathyroide adenoma with ultrasound combined with fine needle aspiration

E. QUAK: F18-choline PET/CT as a second line tracer for parathyroid adenoma detection in primary hyperparathyroidism when ultrasound and MIBI SPECT/CT are negative or inconclusive: the APACH1 study

AM. SHENOY: The management of trachea in differentiated thyroid cancers

T. TIKKA: Predictors of extracervical approach for intrathoracic goitres

16:30
18:00ORAL COMMUNICATION
SESSIONOral cavity and oropharyngeal
cancer

HN-OC03A

ROOM 252A

Moderators: C. PAGE, M. SZCZEPANSKI

Speakers:

C. RIGHINI: Histopathologic predictor factors for occult lymph node metastases in patients with cT1-2- NO squamous cell carcinoma of anterior tongue

P. CHATURVEDI: Comparison of Tumor volume and Thickness as predictors of nodal metastasis and survival.

A. CHEN: Elective neck dissection in early stage buccal cancer

JD. COMBES: Prevalence of human papillomavirus in tonsil brushings and gargles in cancer-free patients: The SPLIT study

J. CONNELL: Quality of life and functional outcomes after lateral temporal bone resection and reconstruction

JM. COSTA: Prognostic capacity of regional involvement in patients with oropharyngeal carcinoma according to HPV status.

AL. FENGER CARLANDER: Continuing rise in oropharyngeal cancer in a high HPV prevalence area: A Danish population-based study from 2011-2014

C. GRØNHØJ: Novel nomograms for survival and progression in HPV+ and HPV- oropharyngeal cancer: a population-based study of 1,542 consecutive patients

CY. HUANG: Modified margin to thickness ratio predicts poor outcome in oral cancer patient

K. KARNOV: Increasing incidence and survival in oral cavity cancer: a Danish nationwide study from 1980 to 2014

S. MATTHEIS: Transoral robotic surgery (TORS) with the Flex Robotic System in patients with hypopharynx and supraglottic tumors

J. MEULEMANS: Up-front and Salvage Transoral Robotic Surgery (TORS) for Head and Neck Cancer: a Belgian Multicenter Retrospective Case Series

M. SZEWCZYK: Positive fresh frozen section margins as an adverse independent prognostic factor for recurrence in oral cavity squamous cell carcinoma.

R. WOODS: Outcomes of Transoral Laser Microsurgery for Oropharyngeal Squamous Cell Carcinoma in Ireland

A. SUMARROCA-TROUBOUL: Relationship between the transcriptional expression of myeloperoxidase and the appearance of distant metastases in patients with head and neck squamous cell carcinoma.

Airway

LA-OC01

Moderators: JP. KLUSSMANN, F. ESPITALIER

ROOM 241

Speakers:

I. ATALLAH: Laser tracheobronchoplasty : a novel technique for the treatment of tracheobronchomalacia

W. CHA: The device for real-time light-guided vocal fold injection

W. CHA: Office-based biopsies for laryngeal lesions: Analysis of consecutive 581 cases.

CI. DOROS: Laser surgery for recurrent laryngeal paralysis

A. GELBARD: Volume-Outcome Relationships in Adult Airway Reconstruction

K. HANSEN: Non-selective unilateral laryngeal reinnervation in unilateral vocal cord paralysis: 10 years of surgical experience

S. HIROSHIBA: Type 2 thyroplasty for adductor spasmodic dysphonia; Long-term results and factors which affects the outcomes

I. KOCAK: anterior commissure phonosurgery techniques

N. LAZRAC: Posterior cordotomy with radio - frequencies in laryngological diplegia

SW. LEE: Recurrent laryngeal nerve re-innervation or injection laryngoplasty: which is more effective for treating thyroidectomy-related vocal fold paralysis? a long-term comparative prospective study

M. LI: Selective Reinnervation of Laryngeal Abductor and Adductor Muscles Using Phrenic Nerve and Hypoglossal Nerve branch in Patients with Bilateral Vocal Fold Paralysis

CJ. LIU: The alternative way to use thyroid cartilage as graft in Isshiki type I thyroplasty for unilateral vocal fold paralysis

P. PRYANIKOV: The treatment of patients with bilateral stenosis of the larynx using the cold plasma.

M. RYABOVA: Diode 980 ym laser surgery of recurrent respiratory papillomatosis.

D. TSUJI: Endoscopic Laser Thyroarytenoid Myoneurectomy for Adductor Spasmodic Dysphonia: How is it done?

Moderators: An. RIVAS, HK. LEE

ROOM 341

Speakers:

M. CHATZIMICHALIS: Influence of prosthesis positioning after ossiculoplasty

M. DAVAL: Stapedovestibular granuloma after stapes surgery

B. DJURHUUS: Epidemiology of Cholesteatoma in Denmark – Incidence and Recurrence rates

M. FARAMARZI: Can surgical Technique act as a Prognostic Factor for Graft Success Rate in Chronic Otitis Media?

E. KOZIN: Design and In Vitro Evaluation of a Three-Dimensionally Printed Tympanic Membrane Graft

H. LARA SANCHEZ: How We Do It? Endoscopic “Push Through” Underlay Technique Myringoplasty

J. LOOCK: Evidence-based surgery for cholesteatoma

R. MCCALLUM: Endoscopic Stapes Surgery: A UK experience

R. MCCALLUM: Does light intensity matter? The effect of light intensity on image quality in endoscopic ear surgery

R. MORAWSKI: Long-term hearing results in patients after ossiculoplasty intraoperatively monitored by round-window electrocochleography

F. SALBURGO: benefit of pressure and vestibular test in management of perilymph fistula

AR. SCOTT: Evaluation of the reasons for conversion of endoscopic ear surgery to an open procedure

A. VANDEVOORDE: Early postoperative imaging of the labyrinth by Cone Beam CT after stapes surgery for otosclerosis with correlation to audiovestibular outcome

H. ZHANG: Comparing Outcomes of Endoscopic versus Microscopic Middle Ear Surgery; A United Kingdom Experience

Otology - 02

OT-OC02

Moderators: L. GARCIA IBANEZ, MP. THILL

ROOM
MAILLOT

Speakers:

M. BOEDTS: The effect of paper patching on aural fullness of unknown etiology.

P. BOWLES: Prospective study to assess the efficacy of balloon dilatation of Eustachian tube in 39 patients (55 ears) with Eustachian tube dysfunction (ETD)

F. CAMACHO CÔRTE: intracranial complications of acute mastoiditis: are they predictable?

M. DONATO: External auditory canal exostoses: classification proposal with implication for surgical treatment

B. FAN: Indwelling Time of Tympanic Ventilation Tubes in OME Children Who Underwent Tympanostomy Tube Insertion: A Cross-sectional Study

Y. HARABUCHI: Clinical features and treatment outcomes of otitis media with antineutrophil cytoplasmic antibody (ANCA)-associated vasculitis (OMAAV): a retrospective analysis of 235 patients from a nationwide survey in Japan

E. HEWARD: Microbiology and Antimicrobial Resistance of Otitis Externa in Secondary Care

H. KABTOURI: Expression of the Calmodulin-Like Protein CALML3 in the external auditory canal skin of patients affected by chronic otitis media

J. LOOCK: the use of antiseptics rather than antibiotics in active chronic otitis media

S. MULAZIMOGLU: Effects of a sensory branch to the posterior external ear canal: Coughing, pain, Hunt's Syndrome and Hitselberger's sign

P. RHYS EVANS: Aural exostoses (Surfer's Ear) provide vital fossil evidence of an aquatic phase in Man's early evolution

F. SIMON: Cartilage morphogenesis in the external ear: a 3D study using synchrotron microtomography

F. SOFUOGLU: The Influence of the Eustachian Tube Length and Angle in Development of Chronic Otitis Media

AA. SRIYANA: The Relation of Reflux Finding Score and Middle Ear Pepsin Level in Chronic Suppurative Otitis Media I

Moderators: H. LOPPONEN, M. GOYCOOLEA

ROOM 342B

Speakers:

P. ACHAR: Long-term outcomes of electroacoustic stimulation cochlear implants –: a single U.K. centre experience

L. ALVAREZ GOMEZ: round window histopathological changes after cochlear implantation in an experimental model (macaca fascicularis). Alvarez-Gómez Laura, Manrique-Huarte Raquel, de Abajo Jorge, Manrique Manuel ENT Department. University of Navarre Clinic. Spain

D. BAKHOS: Auditory localisation in single side-deafness patients with recovery of binaural function

CJ. CISNEROS LESSER: Evaluation of intracochlear trauma after cochlear implant electrode insertion through a middle fossa approach in temporal bones.

A. GOSTIAN: The ideal round window vibroplasty - recommendations from the temporal bone laboratory

A. MAGELE: Long-term results of Active middle ear implantation in Elderly people

E. MAMELLE: Hearing outcomes after cochlear implantation in candidates to electro-acoustic stimulation

R. MANDAVIA: Evaluating the NHS Clinical Commissioning Policy on Bone Conducting Hearing Devices: Quality Assessment and Systematic review

M. MANRIQUE: Full vs partial insertion of an electrode array: functional and anatomical findings in an experimental model (macaca fascicularis)

T. NAUWELAERS: Three-Dimensional Force Profile During Cochlear Implantation Depends on Individual Geometry and Insertion Trauma

MS. OTTE: Influence of backside loading on the floating mass transducer in vitro

J. RAY: Transcutaneous BAHA Attract Implants – Three year results in first hundred cases

N. VERHAERT: Middle Ear implants: their place in the hearing loss world

F. YOSHIE RUSSO: Hearing rehabilitation by cochlear implant in unilateral deafness with contralateral fluctuating hearing loss.

Head & Neck, tonsils

PE-OCO2

Moderators: P. KRAKOVITZ, S. AYARI

ROOM 251

Speakers:

T. AHMED: Is There Any Benefit of Drain Placement on Postoperative Complications in Patients Undergoing the Sistrunk Procedure?

P. DAYRELL NEIVA: The effect of adenotonsillectomy on head position, cervical and thoracic spine and shoulder girdle of mouth breathing children.

C. DUARTE: Rare complication of adenotonsillectomy – pseudoaneurysm of the carotid artery

Y. GALLOIS: Cervico-facial nontuberculous mycobacterial lymphadenitis: what management?

F. HAROUN: Reconstruction of large mandibular defects using 3D custom made porous titanium prostheses and free flap in children

J. LAHMAR: Contribution of MRI in management of retro-pharyngeal and para-pharyngeal abscesses in children.

S. MILLAR: If you're not having complications you're not operating enough!

K. OBI: Nineteen case series of surgically resected pyriform sinus fistula: Origin, pathology and relation to thyroid gland

Y. OLGUN: combined therapy in pediatric head and neck rhabdomyosarcomas

L. O'NEIL: Management of recurrent thyroglossal duct cysts: 15-year review of paediatric patients

I. PINTO: Six months follow-up of children's voice characteristics after adenoidectomy with or without tonsillectomy

M. RASHID: The importance of dexamethasone in reducing postoperative morbidity from a tonsillectomy

ME. ROSSI: Management of fourth branchial anomalies: a multicentric review

P. SUY: Our experience of injection of botulinum toxin into the salivary glands to reduce drooling in children with cerebral palsy

H. ZALZAL: Airway Splinting by Tonsillar Hypertrophy as identified by Drug Induced Sleep Endoscopy

16:30

Moderators: J. SPRATLEY, S. ROMAN

ROOM 242B

Speakers:

E. BOIS: Pediatric Otological Complications of Turner's syndrome

C. CELERIER: Results of VSB implantation at the short process of the incus in children with ear atresia

WC. HSU: Impacts of disease severity on postoperative complications in children with sleep-disordered breathing

TC. HUANG: The Challenge and Strategy of Endoscopic Ear Surgery in Dealing with Pediatric Ear Disease

M. HUBER: Adolescents with cochlear implants- Mental health problems are related to different school systems, mediated by audiological and social variables

A. JAYAWARDENA: In-utero exposure to HIV and HAART linked to failed newborn hearing screening

HJ. KIM: A novel surgical staging of congenital cholesteatoma of the middle ear

J. LERAT: LHFPL5 is the major gene of deafness on the Reunion Island (Indian Ocean)

J. LERAT: an application of ngs for molecular investigations in Perrault syndrome (deafness and gonadal dysgenesis): study of 14 families and review of the literature.

J. LERAT: A complex homozygous mutation in ABHD12 responsible for PHARC syndrome (Polyneuropathy, Hearing loss, cerebellar Ataxia, Retinitis pigmentosa and early-onset Cataract) discovered by NGS

N. MILESHINA: Is canalplasty still indicated in high grade ear atresia ?

S. MINAMI: Clinical and Genetic Studies of 21 families with Japanese Waardenburg Syndrome

M. PARODI: Evaluating the efficiency of Valganciclovir treatment on hearing loss in congenital Cytomegalovirus (CMV) disease

A. VANDEVOORDE: Influence of specific cerebral anomalies on the functional result of cochlear implantation in pediatrics

T. YANG: Genetic screening of the homozygous p.V37I variant in GJB2 may facilitate early detection of postnatal childhood hearing loss

H. XU: Supraglottoplasty in Infants: A Radiofrequency Ablation Approach

Clinical research and exploration

EQ-OC02

Moderators: D. NUTI, S. WIENER-VACHER

ROOM 352A

Speakers

F. ASSABAN: Virtual Reality for Vestibular and Motion Sickness Rehabilitation

PW. CHENG: Degeneration of the vestibular nerve in Meniere's disease evaluated by vestibular-evoked myogenic potentials

B. DEVROEDE: Video Head Impulse Test in children: normative data and test-retest reliability

J. DISCHER: VHIT for kids

I. DJENNAOUI: Transient application of differential pressure between endolymph and perilymph mimicks an attack of meniere's disease

N. EGAMI: A novel animal model for Meniere's disease

A. MAUDOUX: Hearing and vestibular disorder in children and young adults with Friedreich ataxia.

E. RIIS ABRAHAMSEN: Intra- and inter-examiner reliability of two separate video Head Impulse Test systems assessing all six semicircular canals

M. STŘÍTESKÁ: Modern vestibular testing

M. TOTILIENE: Development of Mobile Virtual Reality System for Investigation of Subjective Visual Vertical

H. VUONG CHANEY: 3D model of posterior membranous labyrinth from in vivo MRI of human temporal bone, including sensory zones

TH. YANG: Intratympanic isosorbide reduces endolymphatic hydrops (EH) and ameliorated audiovestibular function in the guinea pigs

Y. ZHANG: Vestibular evoked myogenic potentials in patients of large vestibular aqueduct syndrome

16:30
18:00ORAL COMMUNICATION
SESSION**Vestibular disorders and rehabilitation**

EQ-OC03

Moderators: P. PERRIN, R. ABADA

ROOM 353

Speakers :

- D. DUPONT HOUGAARD: Treatment of Benign Paroxysmal Positional Vertigo (BPPV) with the TRV Reposition Chair.
- D. FABRE-ADINOLFI: Effects of unilateral cochlear implantation on balance control and the perception of the environment in adult patients with profound hearing loss.
- L. FELIPE: Vibrotactile Biofeedback System and Bilateral Vestibular Loss: Pilot Study
- S. FRANK: Peripheral vestibular syndrome associated with several metabolic pathologies
- A. HEDJOUJJE: Computed Tomography and Magnetic Resonance Imaging-based Finite Element Analysis Predicts Current Flow in Labyrinths Implanted with a Multi-Channel Vestibular Prosthesis
- K. JIRAWARAKUL: Abnormal vestibular function: The cause of motion sickness, Really ?
- A. KARKAS: Impact of cochlear implantation on vestibular function in the adult
- I. PALICIO: The effect of cochlear implantation on vestibular function: Objective assessment with vHIT.
- A. PEREZ FORNOS: Evaluation of vestibular implant performance in humans using the video head impulse test (vHIT)
- L. RIBEYRE: Postural control and psychological factors: what could be done to improve health care of patients with vestibular schwannoma before surgery
- WW. SEAH: Does providing early on-site vestibular rehabilitation within an emergency department setting benefit patients with Benign Paroxysmal Positional Vertigo (BPPV)?
- Q. SHEN: Effect of Auditory Distraction on Maintaining Balance in Patients with Vestibular Dysfunction and Seniors
- M. SOSNA: Does the insertion depth of the electrode influence the vestibular function after cochlear implantation?
- V. VAN ROMPAEY: Semicircular Canal Fibrosis as a Biomarker for Lateral Semicircular Canal Function Loss.
- A. WECKEL: Vestibular function and cochlear implantation, in pediatric population

16:30
18:00ORAL COMMUNICATION
SESSION**Parotid gland tumour**

HN-OC01

Moderators: C. RIGHINI, RA. LIMA

ROOM 252A

Speakers:

U. ALKAN: Fine needle aspiration cytology for parotid lesions, can we avoid surgery?

S. ANDREASEN: A Clinical, Morphological and Genetic Overview of Homologous Tumors of the Salivary gland, Lacrimal gland and Breast with an Emphasis on microRNA Expressional Profile and Targeted Treatment

O. CHOUSSEY: Evaluation of the learning curve in sialendoscopy by the CUSUM method

C. DELLGREN GENESER: Salivary gland tumors in children - Incidence and survival - a nationwide cohort study in Denmark

P. DULGUEROV: SMAS flap in the prevention of Frey syndrome: a meta-analysis

L. DAHAN: Mucoepidermoid carcinoma of salivary glands: a REFCOR study of 292 cases

O. IZIKI: Parotid gland tumors in the child: a 20-year experience from a centre in Morocco.

J. KÜSTERMEYER: Quantitative perfusion-analysis of parotid gland tumors with contrast-enhanced ultrasound with an emphasis on the early wash in phase

T. MCCULLOCH: Adenoid Cystic Carcinoma: Risk factors for Death and Distant Disease

M. MEYER: Prediction of outcome by lymph node ratio in patients with parotid gland cancer

G. MULHOLLAND: Precision Gene Expression Profiling and Mutational Analysis of Salivary Gland Lesion Fine Needle Aspirate Biopsies

M. SAKURAI: Comparison of curative surgery and carbon ion radiotherapy as an initial treatment for patients with carcinoma of the parotid gland

JY. SICHEL: Surgical decisions based on an FNA in the absence of a systematic frozen section for a parotid gland tumor is not prejudicial for the patient.

A. VILLEPELET: Salivary duct carcinoma: a prospective multicenter study of 61 cases of the REFCOR

M. YAGI: Usefulness of facial nerve monitoring during retrograde partial parotidectomy for benign lesions

16:30
18:00ORAL COMMUNICATION
SESSION

Laryngeal and hypopharyngeal cancer

HN-OC04

Moderators: K. OUOBA, R. LEEMANS

ROOM 251

Speakers :

J. ALKASBI: Supracricoid partial laryngectomy with chep. a serie of 191 patients with glottic cancer. is it still indicated?

S. DABAS: Feasibility study and oncological outcome of TORS for Stage I and II HPV negative Supraglottic cancers: Interim analysis.

K. KOURELIS: nf-kb activation pattern is documented in the process of laryngeal squamous differentiation

WC. LO: Lymph Node Ratio Predicts Recurrence and Survival in Patients with Pathologically Stage IV Hypopharyngeal Cancer

K. LUU: Primary versus secondary tracheoesophageal puncture for voice rehabilitation in laryngectomy patients: A systematic review

J. MEULEMANS: Laryngopharyngoesophagectomy with gastric pull up for hypopharyngeal squamous cell carcinoma: a retrospective case series

L. MINH KY: The role of supracricoid laryngectomy in treatment of laryngeal cancer

S. MIYAMOTO: Clinical Characteristics and Outcomes of Hypopharyngeal Carcinoma Patients over 80 Years of Age: A Single Center Experience in Japan

BE. MOSTAFA: Management of early malignant lesions of the larynx: is there still a place for open surgery ?

C. MUTURI: Characteristics and possible risk factors of patients with hypopharyngeal scc in kenya

R. NOURAEI: Impact of the method and success of pharyngeal reconstruction on the outcome of treating laryngeal and hypopharyngeal cancers with pharyngolaryngectomy: a national analysis

J. PETERSEN: Development and external validation of a risk prediction model to predict 5-year overall survival in advanced larynx cancer

M. STANKOVIC: Current status on laryngeal carcinoma surgery. laser or open, primary or salvage surgery.

16:30
18:00

ORAL COMMUNICATION SESSION

Voice disorders and scars

LA-OC02

Moderators: L. MARON, S. CRESTANI

ROOM 241

Speakers:

N. CARMEL NEIDERMAN: Vocal fold polyps and sulcus vocalis: coincidence or coexistence?

Y. KIZIM: Biomarkers in the diagnosis of laryngopharyngeal reflux-associated laryngeal polyps

A. MATTEI: CELL CORDES clinical trial : cell therapy and scarred vocal folds

B. MIASKEWICZ: Results of surgical treatment of patients with sulcus vocalis

AM. MOJICA ROJAS: Vocal outcome after immediate reconstruction of the recurrent laryngeal nerve in thyroid surgery. Hospital Militar Central. Bogotá, Colombia 2010 – 2015

A. PAJOR: Expression of growth factors and extracellular matrix proteins in laryngeal polyps and Reinke's edemas

A. PAJOR: Expression of sex steroid hormone receptors in laryngeal polyps and Reinke's edemas.

I. PINTO: Benign laryngeal lesions: a five year review

T. TACHIBANA: Prognostic Factors and Importance of Recognition for Adult Croup

JH. WOO: The effect of human adipose tissue-derived stem cells (hASCs) in a rat model of subglottic stenosis

16:30
18:00ORAL COMMUNICATION
SESSION**Otology - 04**

Moderators: A. HUBER, AC. FONSECA

OT-OC04

ROOM 341

Speakers:

S. BARBER: Correlates of electrode array position with perception in pediatric and adult users of the auditory brainstem implant

S. BARBER: Optogenetic Stimulation of the Central Auditory System: A Novel Light-based Auditory Brainstem Implant

C. BIRMAN: Changing demographics over 30 years of the Sydney Cochlear Implant Centre, one of the worlds largest programmes.

MN. CALMELS: Non users and partial cochlear implant users: why?

R. EIKELBOOM: Does cochlear implantation have a positive impact on cognitive function and mental well-being of recipients?

B. FAN: Preimplant measures of M(C)ND classification as predictors of cochlear implant outcomes in children with inner ear or/and auditory nerve malformation

B. GODEY: Hearing performance of cochlear implantation in congenital malformations of the inner ear

V. KANUMURI: Advances in Cochlear Optogenetics: An Update on the Efforts Toward an Optically Based Cochlear Implant

D. LAZARD: How lip-reading and phonological processing in post-lingual deaf adults explain cochlear implant outcome.

A. MELVILLE DA CRUZ: Rates of Revision, Device Failure and Hearing Outcomes in Cochlear Implant Surgery: a 30-Year Experience

HJ. PARK: Speech Perception in Sequential Cochlear Implantation: When is a Critical Period for Initiation of Auditory Stimulation in Unilateral Deaf Children?

C. PONCET WALLET: Feasibility of Remote Care for Long Term Follow-up of Adult Cochlear Implant

CE. ROUF: Impact of a multimedia support on the understanding of medical information by deaf patients before cochlear implantation

E. STAPLETON: Outcomes of Cochlear Implantation in Patients with NF2: The UK experience

16:30
18:00ORAL COMMUNICATION
SESSION**Otology - 05**

OT-OC05

Moderators: A. ESHRAGHI,
H. RONDON CARDOZO

ROOM 342A

Speakers:

F. ALZHRANI: Facial palsy following cochlear implantation

C. ANZALONE: For Whom the Bell's Tolls: A Single Institutional Review of Recurrent Facial Palsy

H. COSTA: Dental pulp stem cells versus bone marrow stem cells in facial nerve regeneration

S. DEBERGÉ: Quality of life in patients with small and medium vestibular schwannomas: observation group, radiosurgery group and surgery group

N. DEEP: Transmastoid Endoscopic-Assisted Eustachian Tube Packing After Translabyrinthine Tumor Resection

X. DUBERNARD: Drilling of internal acoustic meatus by fixed endoscope

T. KARAGÖZ: Homeostasis model assessment (homa): a novel prognostic index in bell's palsy

T. KARAGÖZ: Prognostic value of electrophysiological tests in bell's palsy

S. LLOYD: Management of Facial Nerve Schwannomas

MA. LOUGES: Effectiveness of neuro-vascular decompression in 86 patients with Trousseau neuralgia

V. ROSSI: Long-term surgical results in microvascular decompression for hemifacial spasm: efficacy, morbidity and quality of life

F. YOSHIE RUSSO: medical and surgical management of hemifacial spasm due to neurovascular conflict

16:30
18:00ORAL COMMUNICATION
SESSION

Otology - 06

OT-OC06

Moderators: C. CURET, H. DIAB

ROOM 342B

Speakers:

A. DELHEZ: In vivo and in vitro studies on estetrol for prevention and treatment of sensorineural hearing loss

N. EL SABBAGH: Intratympanic Dexamethasone in Sudden Sensorineural Hearing Loss: A Systematic Review and Meta-Analysis

AR. FETONI: The redox imbalance as a target for treatment of Noise Induced Hearing Loss

C. FUJIMOTO: Autophagy is essential for hearing in mice.

O. HANDZEL: Mobile phone application in Otology and Oto-neurology

A. KAKIGI: Evaluation of the dehydration effect of isosorbide on the normal and hydropic guinea pig cochleae using optical coherence tomography in vivo

J. KEMPFLE: Lin28 influences proliferation and cell fate of cochlear glial progenitor cells

R. MANDAVIA: A cross-sectional evaluation of the validity of a smartphone otoscopy device in screening for ear disease in Nepal

M. MASSUCCI-BISSOLI: Stemness in the human adult cochlea? Sphere formation and identification of ABCG2.

V. PRASAD: Hearing loss and the risk of Neurocognitive Disorder in an Asian population: Findings from the Singapore Longitudinal Ageing Study

D. RAMOS: neonatal auditory screening protocol for children with microcephaly by zika-virus

C. ROOSLI: Otoacoustic emissions elicited with a stimulus on the dura and air conduction

A. SCHNEIDER: Automated detection of the Acoustic Reflex with a digital stereoscopic microscope

F. SYROEZHKIN: Cortical changes in mixed hearing loss: VBM and DTI study

A. VASHISHTH: Subtotal Petrosectomy: Interface between Otology & Skull Base Surgery

16:30
18:00ORAL COMMUNICATION
SESSION**Different approaches for swallowing disorders**

PH-OC02

ROOM 242A

Moderators: F. BOBIN, V. SCHWEIZER

Speakers:

E. DE LIMA ALVARENGA: functional endoscopic evaluation of swallowing (fees) and its correlation with body mass index (bmi) in elderly.

E. DE LIMA ALVARENGA: Continuum Theory – Presbyphagia to Dysphagia. Is It a fact? Functional assessment of swallowing in the elderly.

M. DESOUKY: Self-Perception of Swallowing-Related Problems in Laryngopharyngeal Reflux Patients Diagnosed with 24-Hour Oropharyngeal pH Monitoring

M. DOGAN : Can Reflux Finding Score And Reflux Symptom Index Be Used Among Children To Reflect The Severity Of Esophagitis

R. GUTIERREZ FONSECA: interdisciplinary Protocol for Dysphagia assesment in acute stroke: Outcomes in survival and aspiration pneumonia improvement.

K. KATO: Central-part laryngectomy is a low invasive surgical procedure to control intractable aspiration and also useful for swallowing.

N. MARAGOS: Botulinum Toxin In the Treatment of Intransigent Chronic Cough

T. MCCULLOCH: Normal variation in pharyngeal swallow pressure across age in sex

T. MESALLAM: Voice Problems among Laryngopharyngeal Reflux Patients Diagnosed with Oropharyngeal pH Monitoring

M. MOERMAN: Vocal tract morphology in inhaling vowel production.

R. NOURAEI: Role, scope and integration of transnasal oesophagoscopy within Otolaryngological practice

A. RAMEAU: When did gastro-esophageal reflux become a disease?

16:30
18:00

Implants and grafts in rhinoplasty

PS-OC01

Moderators: E. RACY, M. ONERCI

ROOM 253

Speakers:

- I. ANGHEL: Rhinoplasty procedures - personal experience
- A. CONSTANTIN CHEITA: Postoperative complications following nasal septoplasty and rhino(septo)plasty
- D. KORCHIA: Nasal Tip Remodeling Technique. Modified Converse's Technique. Functional and Esthetic Results on more than 750 Patients .
- R. MIGLIAVACCA: Tongue-in-Groove Technique associated to Vertical Dome Division in Rhinoplasty: Case Series Study
- N. MIR-ULLDEMOLINS: How to stabilise septum in rhinoplasty in complex crooked nose.
- O. MIGLIAVACCA: Prevalence of body dysmorphic disorder in candidates to rhinoseptoplasty
- S. NAZARI: A modification in tongue in groove technique to relife of tip stiffness
- T. RADULESCO: Alolateropexy for management of droopy nose
- P. RIVES: Nasal chondrocytes and dextran/pullulan scaffold for cartilage tissue engineering.
- F. ROSA: The Portuguese version of "The Utrecht Questionnaire for Outcome Assessment in Aesthetic Rhinoplasty": validation and clinical application
- S. SALEH ALSAIF: septal perforation repair
- F. WANG: Effect of minimally invasive endoscope-assisted rhinoseptoplasty and related diagnostic methods
- E. YAP: Structural Rhinoplasty for South East Asian Noses

16:30

SESSION**General rhinology**

RA-OC01A

Moderators: L. CRAMPETTE, V. PATRON

ROOM 242B

Speakers:

- I. ALOBID: Comparative study of allergy rhinitis between children and adults
- E. BEQUIGNON: Empty Nose Syndrome and Hyperventilation Syndrome
- T. BRANDSTAETTER: The association of dental implants and maxillary sinus pathologies: a retrospective study
- B. BROADBENT: Patterns of hospital admission for patients with epistaxis over a 20-year period in Scotland, UK
- V. CHROBOK: Rhinogenic orbital inflammation – what has changed over the past 50 years?
- L. DE GABORY: A multicenter, randomized, controlled trial comparing Respimer® mineral-rich solution vs normal saline after sinus surgery
- R. HERVOCHON: Unilateral versus bilateral transnasal endoscopic sphenopalatine artery ligation in adult unilateral epistaxis: a comparative retrospective study
- A. HESHAM EL DAMATY: Intratubinal versus extratubinal microdebrider-assisted inferior turbinoplasty; preliminary results
- H. HOFFMAN: Smell Impairment Among Adults Aged 40 or More Years: Results from the U.S. National Health and Nutrition Examination Survey, 2011-2014
- S. OZER: Results of the Endoscopic Sandwich Graft Repair in Large Nasal Septum Perforations
- P. PAVLIDIS: The long term-effects of nicotine on oral mucosa and taste acuity
- C. PIPOLO: Nasal Cytology Evaluation in Newborns: Preliminary Results
- J. SANTILLAN COELLO: Microscopic Repairing of nasal septal perforations. Our Experience
- L. TAVERNIER: Prevention of post-operative haemorrhagic risk in endonasal surgery
- R. VELEZ CASTILLO: Utility of the nasoseptal flap as support for ocular prosthesis in a third level of attention hospital in México.

KEYNOTE
LECTURE**Can we predict balance compensation
after vestibular schwannoma surgery?**

Chairman: H. KINGMA
 Speaker: C. PARIETTI-WINKLER

EQ-KL08
 ROOM 352B

**Inside out anatomy in transoral
surgery**

Chairman: C. RIGHINI
 Speaker: M. HINNI

HN-KL24
 ROOM 252A

**Robotic surgery in head & neck cancer:
pearls, pitfalls and the role of HPV**

Chairman: B. LALLEMANT
 Speaker: U. DUVVURI

HN-KL22
 ROOM 251

10:00
10:30KEYNOTE
LECTURE**Voice disorders after thyroid surgery**

LA-KL02

Chairman: J. SANTINI
Speaker: RT. SATALOFFBLUE
AMPHI-
THEATRE**Voice and speech place of ENT in diagnosis of neurological disease**

PH-KL01

Chairman: S. PINTO
Speaker: H. ACKERMANN

ROOM 242A

Facial plastic surgery in ENT: when is less surgery just right?

PS-KL09

Chairman: N. SINGH
Speaker: AJ. TASMAN

ROOM 253

Evolution of the reconstruction of skull base defects

RA-KL03

Chairman: L. ESSAKALI
Speaker: E. WANG

ROOM 243

The history, controversies and advances made in drug induced sedation endoscopy

SM-KL13

Chairman: O. VANDERVEKEN
Speaker: B. KOTECHABORDEAUX
AMPHI-
THEATRE11:00

12:00

ROUNDTABLE

Pathways to success in physician led innovation

EDU-RT07

Chairman: M. BROMWICH
Panelists: C. CANADAS, G. GREEN, G. RICHTER,
T. VALDEZ

ROOM 352B

Far advanced otosclerosis

OT-RT17

Chairman: C. CURET
Moderator: B. FRAYSSE
Panelists: C. CURET, A. MARTINI, P. MERKUS,
I. MOSNIER, N. VERHAERT, E. YOUNES

ROOM 352B

11:00
12:30

SYMPOSIUM

AFIDOC SESSION

AFIDOC

Chairman: D. BRASNU, JY. SICHEL
 Panelists: P. ATTAL, D. AYACHE, I. BRAVERMAN,
 F. CHABOLLE, A. CHAYS, A. DEROWE,
 I. DOWECK, H. GAVRIEL, D. HARTL, D. KAPLAN,
 J. LACAU St GUILY, J. LECANU, N. LOUNDON,
 A. SHUPAK, T. VAN DEN ABEELE, M. WOLF

ROOM 343

Rehabilitation after total laryngectomy for cancer. What future?

LA-SYMPO08

ROOM 241

Chairman: G. GRILLONE
 Moderator: M. DE VINCENTIIS
 Panelists: A. DE VIRGILIO, TY. HSIAO, L. SANTINI,
 P. SCHULTZ, M. VAN DEN BREKEL

A diagnostic and therapeutic challenges in laryngology

LA-SYMPO11

ROOM 252B

Chairman: E. SJOGREN
 Moderator: G. CAMPOS
 Panelists: A. BLASIAK, M. KUME, R. SERRANO,
 D. TSUJI

Advances in NF2

OT-SYMPO09

ROOM 341

Chairman: V. COLLETTI
 Moderator: M. KALAMARIDES
 Panelists: V. COLLETTI, M. KALAMARIDES,
 S. LLOYD, A. VAN DER MEY, B. WELLING

Evolution of middle fossa approach

OT-SYMPO13

ROOM 342A

Chairman: E. GARCIA IBANEZ
 Moderator: S. SELESNICK
 Panelists: M. GJURIC, R. HAGEN, K. NIEMCZYK,
 S. MURAKAMI, S. SELESNICK, C. VINCENT

Rehabilitation of facial palsy

OT-SYMPO14

ROOM 342B

Chairman: D. MATTOX
 Moderator: G. LAMAS
 Panelists: V. COUSINS, G. LAMAS,
 L. LASSALETTA, T. LINDER, D. MATTOX

Pediatric vascular anomalies – tumours vs malformations

PE-SYMPO06

ROOM
MAILLOT

Chairman: K. WATTERS
 Moderator: R. NICOLLAS
 Panelists: D. HERBRETEAU, G. RICHTER,
 R. SIMIC, A. VARGHESE,

Tracheal stenosis/collapse

KEYNOTE LECTURE

Functional rehabilitation via vestibular implant in humans: state of the art

Chairman: C. DELLA SANTINA
Speaker: JP. GUYOT

EQ-KL02

ROOM
MAILLOT

The functional head impulse test after vestibular neuritis

Chairman: A. CHAYS
Speaker: D. NUTI

EQ-KL09

ROOM 352B

Laser cordectomy for early staged glottic carcinoma: why and how ?

Chairman: P. MOREAU
Speakers: E. DE MONES DEL PUJOL, S. HANS

HN-KL19

ROOM 251

Functional rhinoseptoplasty: a philosophy

Chairman: M. NARAGHI
Speaker: I. TASCA

RA-KL11

ROOM 243

14:30
16:00ORAL COMMUNICATION
SESSION**Cochlear Implants**

AU-OC02

Moderators: D. BAKHOS, M. HITIER

ROOM 343

Speakers:

S. AL-BALAWI: Factors affecting sentence understanding in adult cochlear implant users

C. ALFIERI BONNIER: Benefit of cochlear implantation as follow up to the satisfaction questionnaire of auto evaluation: APHAB

M. ARDOINT: Quantifying inter-electrode cross-talk with electrical auditory brainstem recordings (eABRs): an electrophysiological measure of cochlear implant channel interactions and a tool to predict speech perception outcomes.

F. BERGERON: Development and normalisation of an international French version of the AzBio sentence test.

M. BLANCHARD: Sequential bilateral cochlear implants in children : outcomes and influence of various factors

D. CUDA: Asymmetric hearing loss and cochlear implants: a new emerging indication

R. DANIELE DE SIATI: Programming cochlear implants with FOX

R. DANIELE DE SIATI: Evaluation of the effects of bilingualism and multilingualism on auditory perception scores and speech development outcomes in pediatric cochlear implant recipients

S. FERRIER: Cochlear implantation outcomes in deaf adolescents : factors analysis for perceptive performance.

F. LANGNER: Effect of dynamic range in different stages of signal processing in Cochlear Implant listeners on speech

Y. LI: Predicting auditory outcomes from radiological imaging in cochlear implant patients with cochlear nerve deficiency

G. LINA-GRANADE: Factors influencing perceptive outcomes of the second cochlear-implanted ear in children and teenagers with a long inter-implantation interval

S. ROUX-VAILLARD: Professional and social assessment after 5 years of CI use: occupational and social outcomes

J. SERVAIS: Improvement of Speech Recognition after CI-provision for Bimodal Cochlear Implant Users

A. TERRANTI: Comparison of the Nucleus straight and perimodiolar electrode-arrays during the first year after implantation, in terms of fitting and speech performance in 128 patients

14:30
16:00ORAL COMMUNICATION
SESSION

Nasopharyngeal cancer and Research

HN-OC05

Moderators: G. DOLIVET, JYW. CHAN

ROOM 252A

Speakers:

A. AL-HUSSAINI: Investigating the role of the novel cytokine IL-35 in the regulation of anti-tumour immunity against head and neck cancer.

G. ALMADORI: From translational research to precision medicine in laryngeal squamous cell carcinoma: the role of HER family members overexpression.

KP. CHANG: Promoter mutations in the TERT gene occur frequently in oral cavity squamous cell carcinoma

F. ESPITALIER: Bone repair after therapeutic irradiation with cells and biomaterials

R. QUATRE: Evaluation of the theranostic properties of Gadolinium-based nanoparticles for the treatment of head and neck cancer

M. ST. JOHN: A Modular Polymer Platform that Delivers Recombinant Cytokines and Cisplatin Allows for de-escalation of Radiation Therapy in an Animal Model of Head and Neck Squamous Cell Carcinoma

S. TERZI: The effects of astaxanthin on salivary gland damage caused by cisplatin in the rat

C. VALERO: Pretreatment level of peripheral neutrophils and monocytes is an independent prognostic factor in patients with head and neck cancer

M. VALLS MATEUS: Usefulness of office examination with Narrow Band Imaging for the diagnosis of head and neck Squamous Cell Carcinoma and follow-up of premalignant lesions

A. VLANTIS: A pilot study to assess the feasibility of producing a useful 3-D reconstruction of the complex anatomy of the nasopharynx from ultra-high resolution axial human datasets

M. YOSHIDA: Development of a novel method for rapid detection of head and neck cancer using activatable fluorescent probes for aminopeptidase

CH. YUAN: EGCG Sensitizes Gefitinib-suppressed Metastatic Effects On Cisplatin-resistance Human Oral Squamous Cell Carcinoma CAR Cells Through Synergistic Suppressing Epidermal Growth Factor Receptor

14:30
16:00ORAL COMMUNICATION
SESSION**Reconstruction in head and neck
cancer**

HN-OC06

ROOM 252B

Moderators: B. BAUJAT, K. EMERICK

Speakers:

S. ATALLAH: Functional results of oromandibular reconstruction with osseous free flap. A GETTEC multicenter study.

SVG. BERTESTEANU: Pharyngoesophageal reconstruction with synthetic prosthesis -advantages and the management of complications

O. DASSONVILLE: Multicenter prospective micro-costing study evaluating mandibular free-flap reconstruction

K. EMERICK: Supraclavicular Flap Reconstruction for Major Head and Neck Defects

D. EVRARD: Fibula flap harvesting using a posterior approach: surgical technique and interest.

M. HUMBERT: The free scapular flap: a retrospective analysis of 130 reconstructions

B. IBRAHIM: FAMM flap reconstructions of oral cavity and oropharyngeal defect: outcomes in a multicenter tertiary care setting comparing two different harvesting methods

S. JONNALAGADDA: Supraclavicular Flap - A Review of Complications in the First 25 Cases

J. LACAU St GUILY: Oropharyngeal cancer prognosis by tumour HPV status in France: the multicentric Papillophar study.

YS. LEU: Reconstruction of voice tube after Total pharyngolaryngectomy

J. MARKOWSKI: Nanocomposite implants for maxillofacial surgery

B. MATOS: Late results of platysma myocutaneous flaps for recovery in patients with head and neck cancer

O. MOSKALEVA: Some Aspects of Applying Peroneal Autotransplants for Reconstructing Mid-Face Area

G. NEEL: Endovascular Coiling of Microvascular Anastomotic Pseudoaneurysm: Another Tool in Free Flap Salvage

A. VLANTIS: Management of the oral defect after maxillectomy for malignant disease

14:30
16:00

ORAL COMMUNICATION SESSION

Benign neck tumours

HN-OC07

Moderators: D. DESCHLER, KD. OLSEN

ROOM 342A

Speakers:

S. BALLIVET DE RÉGLOIX: Comparison of penetrating neck injury management in combat versus civilian trauma: review of 55 cases

E. BUSTO: Submandibular combined surgical approach

B. GAYLIS: Endoscopic Zenker's Diverticulotomy - A simplified technique with long term outcomes.

P. HOMØE: Long-term results using LigaSure™ 5 mm instrument for treatment of Zenker's diverticulum

M. KMEID: Clinicopathological features and surgical management of head & neck paragangliomas: a single institution experience

YW. KOH: Evolution of Surgical Technique in dealing with SCM muscle and Spinal accessory nerve in Robotic Modified Neck Dissection

K. MANTSOPOULOS: Transcervical extracapsular dissection in the parapharyngeal space: Pearls and pitfalls

B. MATOS: Results of surgical treatment in post-intubation laryngotracheal stenosis

Y. MATSUMOTO: Tumor Vascular Bursts Provides New Pathway for Nanoparticle Delivery

L. PACHECO-OJEDA: Carotid body tumors. Report of 215 cases

P. PAULA: Tonsilectomy for unilateral tonsillar enlargement in adults

E. SAUVAGET: Diode laser for venous malformation treatment

E. SHEHATA: Location of the Recurrent Laryngeal Nerve (RLN) During Thyroidectomy, the Proximal Versus the Intermediate Approach

P. STEFANICKA: Incidence of cystic squamous cell carcinoma metastases in lateral cervical cysts

14:30
16:00ORAL COMMUNICATION
SESSION

Various topics in Head and Neck 01

HN-OC08

Moderators: N. FAKHRY, RP. TUFANO

ROOM 342B

Speakers:

- S. BHALEKAR: Role of narrow band imaging system in early diagnosis of potentially malignant lesions of oral cavity
- F. BUSSU: At the border between surgery and radiotherapy: current applications and clinical utility of modern brachytherapy in the head and neck region
- V. CHHAYA: Study of different Modalities of treatment in Oral submucous Fibrosis
- A. CODINA AROCA: The role of HPV on the risk of second primary neoplasia in patients with oropharyngeal carcinoma
- K. DAVIES: Non-invasive and label-free detection of oral squamous cell carcinoma using saliva surface-enhanced Raman spectroscopy and multivariate analysis
- H. FOX: Transoral robotic surgery for residual and recurrent oropharyngeal cancers: exploratory study of surgical innovation using the IDEAL framework for early phase surgical studies
- JP. FOY: Identification of a gene expression based radioresistant score in order to predict the benefit of the radiotherapy in HPV-negative squamous cell carcinomas of the head and neck
- R. GARREL : Phase 3 prospective multicenter randomized study comparing elective neck dissection with sentinel node biopsy in T1-T2NO oral and oropharyngeal squamous cell carcinomas : SentimerORL
- P. GORPHE: Transoral Robotic Oropharyngectomy and Reconstruction with Free thin Anterolateral Thigh Flap
- J. GRANELL: Objective evaluation of swallowing after transoral robotic surgery for oropharyngeal cancer
- A. MOYA PLANA: Sentinel Node Biopsy in Early Oral Squamous Cell Carcinomas: A 15-Year Experience
- CH. YUAN: Screening for Oral Cavity Cancer: A 1-year Experience of a Regional Hospital in Taiwan

SESSION

Various topics in Head and Neck 02

HN-OC09

Moderator: R. KANIA

ROOM 241

Speakers:

MR. ATALLAH: Impact of nutritional status on quality of life in head and neck cancer patients.

R. BIRK: Heated air humidification vs. cold air nebulisation in tracheotomised patients increases cilia beat frequency in tracheal epithelium and reduces frequency of required suctioning procedures.

A. DIEYE: Management of retropharyngeal absces in the orl departement of academics hospital of fann

D. EYTAN: Prevalence of Comorbidities in Head and Neck Cancer Survivors in the United States

L. FERRARIA: Body Mass Index: an association with TNM stage and patient outcome in pharyngolaryngeal cancer

C. FRAUENFELDER: Outcomes for Oral and Sinus Cancer Patients Admitted to Intensive care in Australia and New Zealand Between 2000 and 2015: A Multi-centre, Retrospective, Observational Cohort Analysis

R. GIGER: Effect of Preoperative Immunonutrition on Postoperative Short-term Outcomes of Patients with Head and Neck Squamous Cell Carcinoma

R. GRIGORE: Nutritional support of the oncologic patient – the impact on therapeutic management and QOL

F. HAMOUDA: lymph node tuberculosis epidemiological profile, diagnosis and therapeutic strategy in Setif (Algeria) ENT department

R. HURLEY: Deep Neck Space Infections: the hidden cost of a serious condition

KA. HUTCHESON: Expiratory Muscle Strength Training in Chronic Radiation-Associated Aspirators

M. LINXWEILER: Vitamin D deficiency in head and neck cancer patients – prevalence, prognostic value and impact on immune function

F. MISSALE: Pre-treatment Neutrophil/Lymphocyte ratio, Platelet/Lymphocyte ratio and T-Lymphocytes subsets as predictors in laryngeal squamous cell carcinoma: a prospective study.

B. PICHI: QoL in patients treated with electrochemotherapy for incurable recurrent head and neck cancer

E. RETTIG: A Randomized Controlled Trial of a Comprehensive Smoking Cessation Intervention for Patients with Upper Aerodigestive Cancers Undergoing Radiation Therapy: The SmaRT Study

Laryngology

LA-OC03

Moderators: R. GARREL, V. DJUKIC

BORDEAUX
AMPHI-
THEATRE

Speakers:

U. ALKAN: Effect of Tumor Depth on Recurrence and Prognosis of Early Glottic Squamous Cell Carcinoma

L. ALVAREZ: Autologous transplantation of perichondrium into the vocal fold: a retrospective study.

G. CANTARELLA: Acublade CO2 laser assisted mini-microflap excision of vocal fold polyps

G. CANTARELLA: Vocal fold fat grafting according to coleman technique: filler effect or tissue regeneration?

YL. CHOU: Measurement of objective glottal area using laser beam laryngo-stroboscopy and multi-slice spiral computed tomography

A. DE VITO: Narrow band imaging as screening test for early detection of laryngeal cancer: a prospective study

M. DOBRE: Autofluorescence endoscopy in the diagnosis of laryngeal pathology

M. HESS: New 'blue laser' with 445nm wavelength for office-based laryngological indications combining photoangiolytic and cutting properties

HC. HU: Feasibility and associated limitations of office-based laryngeal surgery performed using CO2 lasers

B. KHALIFA: Idiopathic Vocal Process Granuloma (VPG)

D. NGUYEN: Treatment of laryngo-tracheal papillomatosis by using microdebrider

MA. RIAD: Laryngeal compensation in long term untreated vocal fold palsy

M. ZABRODSKY: Usefulness of enhanced contact endoscopy (ECE) for the discrimination between laryngeal squamous cell cancer (SCC) and laryngeal papillomatosis (LP).

W. ZHAO: Evaluation of CO2 laser resection of paraglottic space benign tumor under endoscopic laryngoscopy

14:30

Facial reanimation

PS-OC04

Moderators: G. LAMAS, T. HADLOCK

BLUE
AMPHI-
THEATRE

Speakers:

F. ALLEVI: Association of quantitative and qualitative stimuli for early facial reanimation

C. FOIREST: Smile reanimation after Unilateral Facial Palsy by Lengthening Temporalis Myoplasty : Objective and Subjective Evaluation on 25 cases

R. GÓMEZ-BLASI CAMACHO: Reanimation of the facial nerve using the masseteric nerve. Our experience with two cases.

E. IONESCU: Contralateral reinnervation in severe facial nerve palsy Can we predict it?

SJ. PARK: Scapular Tip and Latissimus Dorsi Osteomyogenous Chimeric Free Flap for Reconstruction of Maxillectomy Defect: A Minimally Invasive Trans-axillary Approach

D. PICARD: Emotion processing in Bell's Palsy.

D. PICARD: Relevance of a software rehabilitation in peripheral facial palsy

R. SALOMONE: Does Chemical Suture work in non-immediate acute facial nerve cut-severence?

D. VERTU CIOLINO: Long-term outcomes of combined upper eyelid platinum implant and lateral tarsal strip for correction of paralytic lagophtalmos.

D. VERTU CIOLINO: Prospective study of masseteric-to-facial nerve anastomosis for reanimation of the facial palsy.

14:30
16:00ORAL COMMUNICATION
SESSION**Fungal sinusitis**

RA-OC06

Moderators: B. HATHIRAM, L. DE GABORY

ROOM 243

Speakers:

F. CUNHA: Genetic analysis of cystic fibrosis patients with chronic rhinosinusitis: Are there genes associated with nasal polyps formation?

S. FUJIEDA: Clinical markers for intractable eosinophilic chronic rhinosinusitis.

I. GENGLER: Blood and mucosal eosinophils immune profile modulation in nasal polyposis with associated asthma

D. LAL: Contrasting the Sinonasal Microbiome of Chronic Rhinosinusitis Subjects with and without Nasal Polyposis

R. MEHTA: Chronic invasive fungal sinusitis in immunocompetent persons- is it rare?

S. PATRO: Experiences with Allergic Fungal Rhino Sinusitis. (AFRS)

S. PATRO: Preoperative vs postoperative itraconazole in allergic fungal rhinosinusitis

E. RACY: endoscopic Dacryocystorhinostomy : 22 years of experience and evolution

M. RAHMAN: Management of Fungal Sinusitis , are we on the right track ? 20 years Experience in Bangladesh

M. RYAN: The 25 year anniversary of «Allergic Fungal Sinusitis» What do we really know?

C. SARAFOLEANU: Iatrogenic foreign bodies of the maxillary sinus and odontogenic sinusitis

A. SHAH: Allergic Fungal Sinusitis - study of seven hundred and sixty cases

L. SOWERBY: Effect of Low Salicylate Diet on Clinical and Biochemical Markers of Aspirin Exacerbated Respiratory Disease

B. VERILLAUD: Value of septo-turbinal flap in the frontal sinus drill-out type IIb according to Draf

U. VOKHIDOV: Local and overall il-2, il-4, il-8 in the patients with chronic «neutrophilic» polypoid rhinosinusitis

14:30
16:00ORAL COMMUNICATION
SESSION**Nasal Allergy**

RA-OC05

Moderators: K. VOGT, R. JANKOWSKI

ROOM 251

Speakers:

R. ANMOLSINGH: The one airway concept: the quality of care, academic and financial benefits of a multidisciplinary clinic

N. CARMEL NEIDERMAN: The Role of imaging in the preoperative

M. HASSAN: Comparative study of ethmoid bone osteitis and tissue eosinophilia in different types of Chronic Rhinosinusitis

H. KAWAUCHI: Innovative Immunotherapy for attenuating nasal symptoms of allergic rhinitis - Via mucosal route with transgenic rice seeds containing - hypoallergenic Cryj1 and Cryj2 T cell epitopes

T. KECK: Aspirin-exacerbated respiratory disease (AERD): ASA challenge, desensitization, and differential diagnosis of nasal hyperreactivity

Y. KIM: Sinonasal change after Allergen Challenge in Mice Deficient in CC Chemokine Receptor-2

K. KONDO: Local IgE Production and Mast cell Infiltration in Eosinophilic Rhinosinusitis

J. MICHEL: Correlation between shape and function in the sinonasal tract: a preliminary study using morphometric geometric and Computational fluids dynamic

S. NARAYAN DUTT: Aetiology and management of tropical diseases in otolaryngology head-neck surgery

F. NURMUKHAMEDOVA: Allergic rhinitis in children with parasitic infestations

D. NYEMBUE TSHIPUKANE: Airways symptoms and sensitization among Congolese bakers and unexposed workers

M. PSN: Correlation between allergic rhinosinusitis and bronchial asthma in patients attending our ent department

A. RITA LAMEIRAS: Aspirin desensitization for aspirin-exacerbated respiratory disease (AERD)

C. SUN-HO: DANYOUNG Classification 2017 Update-2 by Correlation Analysis with Serum Specific IgE Test

U. VOKHIDOV: Immunohistochemical differences of various forms of chronic polypoid rhinosinusitis

14:30
16:00

ORAL COMMUNICATION SESSION

OSAS: diagnoses and treatment

SM-OC02

Moderators: G. PILLAR, X. DUFOUR

ROOM 352A

Speakers:

M. COPPER: DISE during Cpap therapy in patients with Cpap failure

E. DIJEMENI: Early Stage Clinical Validation of Drug Induced Sleep Endoscopy (DISE) Data Fusion System

M. ELBEGERMY: Professor Dr. Mohamed El-Begermy, MD Ain Shams University, Cairo, Egypt

G. FREITAS: Maxillomandibular advancement and midline glossectomy in the treatment of moderate and severe OSAS

M. KARAMAN: Robotic tongue base surgery with Omni-guide fiber transmitted CO2 LAZER

JW. KIM: Deep learning for breathing sound analysis in obstructive sleep apnea

L. KUPCINSKIENE: Relationship between GERD and sleep quality in patients with obstructive sleep apnea syndrome

JA. MICOULAUD-FRANCHI: Impact of genioglossus stimulation (Inspire® therapy) on the objective level of alertness of adults suffering from severe OSA

C. MURE: Interest in basilingual tonsillectomy in the treatment of obstructive sleep apnea syndrome.

A. NEAGOS: Drug induced sleep endoscopy for preoperative evaluation in patients with Obstructive Sleep Apnea Syndrome

V. PAVELEC: Minimally Invasive Implantable Approaches for OSA

B. PETELLE: Does the efficacy of oral appliance therapy predict the surgical success of maxillo-mandibular advancement surgery for obstructive sleep apnea syndrome?

B. PETELLE: Customized orthodontic preparation for patients with high aesthetic demands before maxillomandibular advancement for obstructive sleep apnea.

MH. STRAND MOXNESS: A comparison of minimal cross sectional areas, nasal volumes and peak nasal inspiratory flow between patients with obstructive sleep apnea and healthy controls

E. THULER: TORS for OSAS: How to improve outcomes with Drug Induced Sedated Endoscopy (DISE)
